

Staying Safer...

EVO is a free App that connects women
in New Brunswick to helpful services.

If you are living with intimate partner violence...

EVO can help you gather information and make a personal safety plan to reduce the risk of harm by your partner. EVO will encourage you to tell someone you trust about the abuse and seek services.

Even if you decide to stay in the relationship, the services you find may help you stay safer. You may not want to deal with everything at once. But each step you take is part of your EVOLution to a violence free life.

Before downloading this App or sharing it with anyone consider your options for safety. If a device is not private, it may not be safe to download or share.
